Like last year, OBS has contracted with Thorostride to provide walking videos in lieu of photographs for the Selected Yearlings. Thorostride will contact consignors and arrange for the videos to be done where yearlings are stabled. They will be setting appointments beginning as soon as possible. **NEW FOR THIS YEAR --for horses in the Open and In-Training sessions, walking videos may be submitted to OBS by the owner /consignor (at owners/consignors' expense) to be posted on the OBS website. If you have open yearlings as well as Selected yearlings and you wish to take videos of them, please let Thorostride know when scheduling.** Our desire is to have video footage of all horses September 28, and the videos posted on our website by October 2. **We realize everyone wants to wait as late as possible to shoot the videos, but we must have enough time for editing and to allow buyers ample amount of time to view the videos so please try to accommodate the videographers as best as you can.** If you do not have yearlings in the Selected session, you may contact Thorostride or other video companies to schedule videos for the open and In-Training horses.
