

# This is the OBS Online Bidding screen. It will open in a separate window, if you do not see it pop up, check behind your main browser window.

The screenshot shows the OBS Online Bidding interface. At the top, there is a green header with the 'obs' logo. Below the header, the main content area is divided into several sections. On the left, there is a sidebar with an index of horses. The main area displays details for a specific horse, including its hip number, category, consignor, sire, dam, color, sex, and date of birth. To the right of the details is a video player showing a horse in the ring. Below the video is a bidding board with a 'High-Bid' section showing a current bid of \$4,500 and a 'Ready To Bid' section with a green button for submitting a bid of \$5,000. The interface also includes a 'Track with auction' checkbox and a 'Show Pedigree' button.

The upper-left box contains information for the horse in the ring.

These icons toggle between the live sale, under-tack video (or walking video) and a photo of the horse in the ring.

The bottom-left box shows an index of horses in the sale.

Check this box to have the index automatically follow the sale. The horse in the ring will be at the top.

This button toggles between the index and the pedigree of the horse in the ring.

Submit a 'Max Bid' here. This will bid automatically up to your amount, as long as someone is bidding against you. **READ MAX BID DETAILED INFORMATION BEFORE USING!**

This is your online bid board. You can bid, view the current bid and review bidding history on the horse in the ring.

Click this green button to submit your bid. The number always shows the asking price.
